

# Futronic FS64

## Flat Fingerprint Scanner

### Description

The Futronic FS64 is a low-cost fingerprint scanner from Futronic with a 3.2 x 3.0 inch scanning area. Its advanced optical system captures high quality four-fingerprint images in about 1.0 sec. It can also capture rolling fingerprint images in a 1.6 x 1.5 inch scanning area. The image captured by the FS64 is high quality, and meets the FBI's EBTS/F standard. The outlook design of FS64 is ergonomic and robust, making it efficient and durable.

The FS64 is suitable for use in various environments and applications including border control, electronic ID, issuing passports, electronic election enrollment, and identification. Fully programmable LEDs, buttons and an acoustic buzzer provide a large degree of freedom, enabling developers to design an intuitive user interface. All of these features make the FS64 the most cost-effective and affordable solution for large scale fingerprint identification systems.
