

FbF® VisitorSAFE

Part of the FbF® Demographica Identity Suite

Keep Visitors, Employees, and Property Safe

Whether it's at the guard house or the front lobby, more than ever we need to know that whoever is on the premises belongs on the premises. FbF® VisitorSAFE biometric-enabled visitor management software automates your lobby. Moving previously enrolled guests, vendors, and contractors past the gatekeeper to where they need to go is fast and painless—and, increases the quality of your organization's security.

With the touch of a finger, any office or lobby that must control guest movement can:

- Pull up relevant information about the guest, including photo
- Print badges
- Manage meetings
- Alert the administrator that scheduled guests have arrived

FbF VisitorSAFE lets you:

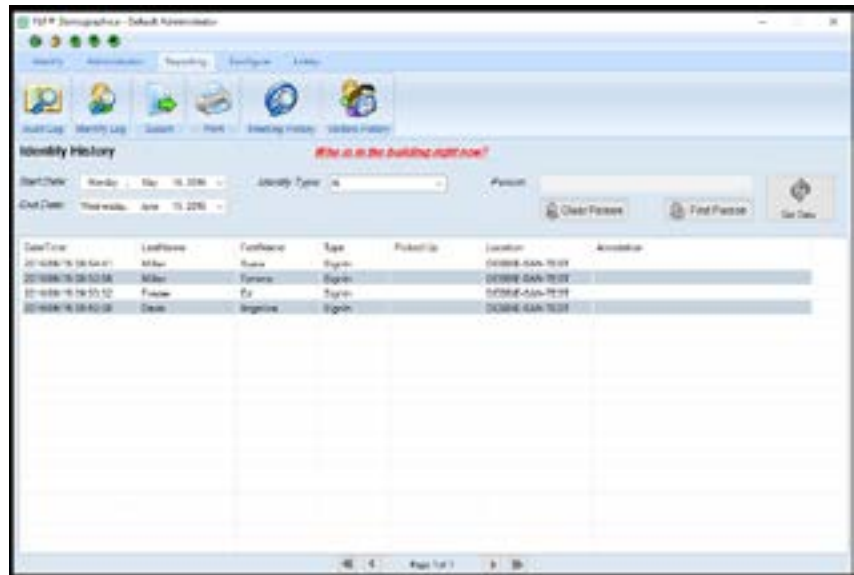

- Eliminate sign-in/sign-out sheets
- Guarantee the identity of your organization's guests by identifying them with with finger biometrics, facial biometrics, and/or a unique PIN
- Know who is on campus at all times at a glance
- Generate emergency evacuation reports
- One-click visitor, meeting, and event history reports

The FbF® **Demographica Identity Suite** is a collection of basic identity management applications that allow organizations to verify the identities of its constituents (clients, employees, visitors, donors, etc.)

Easily configured and operated, Demographica uses biometric technology to quickly and accurately match the people enrolled in your database(s) as they access your facilities or services, making your business S.A.F.E. (**Secure Accurate Fast Economical**).

One-click “Who’s in the building?” report
